BREW...

IT'S NEVER BEEN EASIER TO BREW THE PERFECT CUP OF COFFEE IN UNDER A MINUTE.

STEP 1
Lift the brew handle

STEP 2
Place K-Cup and close the handle

STEP 3
Select one of four cup sizes and press the button

How the K-Cup® Portion Pack Works

What you're looking at is the best thing to happen to a cup of coffee since the invention of the grinder. The Keurig system is the process of brewing the perfect cup of coffee. And it all takes place in under a minute, with no mess or cleanup.

Oxygen, light and humidity are coffee's worst enemies, so the K-Cup features an airtight lid and cup design to seal in the freshness of the just-ground coffee.

To make a perfect cup of coffee, the pressurized water is controlled at the ideal brewing temperature.

Each roaster specifies the exact amount and grind of a given coffee variety within the K-Cup, all to ensure coffee you'll love.

A premium paper filter inside the K-Cup provides optimum results.

All brewing takes place within the K-Cup itself, so there is no residual coffee left behind to affect the flavor of the next cup.

ENJOY...

HERE IT IS. THE COFFEE (OR TEA, OR HOT COCOA) YOU LOVE. EASY, CONVENIENT AND QUICK, WITH NO MESS TO CLEAN UP.

THE KEURIG B3000SE

THIS, OUR LARGEST AND MOST POPULAR BREWER, IS PACKED WITH FEATURES. THE KEURIG B3000SE IS THE WAY TO MAKE GREAT COFFEE FOR LARGE OFFICES.

Welcome to the pinnacle. The ultimate coffee encounter. The best in brewing. The Keurig B3000SE is our top-of-the-line brewer, providing dozens of features designed for the large office.

Its simple, easy-to-use design eliminates the mess and waste of old-style drip coffee makers, and brews the ideal cup of coffee – coffee that everyone in the office will love.

The Features Large Offices Want

- Automatic K-Cup ejection into the storage bin means no handling of K-Cups after the brewing process.
- Easy-to-read LCD screen provides step-by-step instructions, eliminating guesswork.
- We speak your language. Users can select from 3 language options: English, French and Spanish.
- Four different cup sizes to accommodate any coffee-drinker's needs – 4 oz., 6 oz., 8 oz., and 10 oz.
- Direct water line plumbing for unlimited back-to-back brewing every 60 seconds, without the need to refill a water tank.
- Removable, dishwasher-safe drip tray for easy cleaning and use with travel mugs.
- Hot water at the press of a button.

EASY-TO-EMPTY K-CUP BIN

Only touch a K-Cup once. The K-Cup is automatically ejected after each brew and drops into a convenient K-Cup storage bin for later disposal. The brewer alerts you when the bin is full. And if more storage space is needed, a platform with a 70 K-Cup bin can be added.

EASY-TO-READ LCD INTERFACE

It's foolproof. The B3000SE's interface walks you through the brewing process in easy-to-follow steps, in your choice of three different languages. Along the way, you can select from four brew sizes. There's even a hot water only selection.

DIRECT WATER LINE PLUMBING

One brewer, no waiting. With the brewer directly connected to a water line, you can brew a new cup of coffee every 60 seconds, or over 700 cups a day, without having to refill a water tank.

MUG AND K-CUP SENSORS

Can't think before your first cup? This brewer can. The B3000SE alerts you if there is no mug or K-Cup present, so there are no spills or accidental brewing without a K-Cup.

FOUR BREW SIZES

A brew to satisfy every taste. Choose from four different brew strengths – from an intense, 4-ounce brew, that is ideal for iced coffee or espresso-like drinks, all the way to our milder 10-ounce brew. Because tastes differ.

REMOVABLE DRIP TRAY AND EASY TRAVEL MUG USE

Flip and fill. The large-capacity tray flips to accommodate travel mugs. It is designed for easy clean-up, versatility and is dishwasher safe and easy to remove.

VENDING OPTION

Make great coffee. And recoup your costs. The Keurig B3000SE can be paired with a vending option that accepts US and Canadian coins: nickels, dimes, quarters and Canadian dollars.

THE COFFEES YOUR OFFICE WILL LOVE

Share the love. Only Keurig lets your whole office choose from over 200 coffee and tea varieties, offered by over a dozen of the world's finest coffee and tea brands.
